Language, Nature &
Learning:
The E-Library is
Live!
Bringing
environmental
awareness and second
language learning
together.

Welcome to the fourth edition of the Eco-Lingua Kids Project Newsletter!

This phase of our journey was dedicated to the creation, evaluation, and finalization of the Eco-Lingua E-Library — a dynamic collection of learning materials that empower educators to integrate second language learning (L2) with environmental education in early childhood settings.

The Eco-Lingua E-Library: A Living Resource

The E-Library brings together months of collaborative work, creativity, and research. It includes hands-on resources, adaptable lesson plans, and bilingual materials designed to inspire educators and engage young learners.

ECO

PROJECT UPDATES

What Will You Find in the E-Library?

-  Activity sheets and lesson plans
-  Vocabulary cards and visual materials
-  Thematic units combining nature and language learning
-  Tools for assessing L2 progress through environmental themes

Designed with flexibility in mind, these materials can be used indoors or outdoors, individually or as part of thematic projects.

SOON Next Steps

As the E-Library is rolled out, our next focus includes:

- Supporting educators in using the materials through webinars and local activities
- Collecting user feedback for continued improvement
- Promoting the E-Library across schools and early childhood networks
